AFFAIR ABOUNDS IN SOCIAL AND PHYSICAL TRICMPHS.

Debut of the Younger or Charlotte Miss

The social debut of the younger Miss was but one of the things that went to London. make the annual ball of the Mr. Lawrence Mulligan Association at Terrace Garden yesterday morning a notably delicious

Miss Charlotte was chaperoned by her sister, Miss Katherine Poillon, the well known club lady and lady about town, and the police arrangements were in charge of Capt. O'Connor of the East Fifty-first street police station, the reserves, the large group of special officers employed by the Garden management and a number of gentlemen who are friends of Mr. Mulligan and who under the leadership of young Mr. Young Corbett, his brother, the younger Mr. Young Corbett, and Messrs. One Round Hogan and Kid Broad volunteered to assist as plain evening clothes men.

Mr. J. Bahiove Humphreys called attention to the fact yesterday afternoon that up to the time he left the ball to come up for air not a dancer present had spoken out of his turn with the exception of one triffing incident between two young ladies about 3 o'clock A. M. Even this was wholly due to an accident

laughing merrily at one of Abie Jacob's quips caused—quite without premeditation—a wineglass to fall from the rail of the box upon the head of a large blonde young lady with gold teeth, who said later that her costume represented De Soto Discovering the Pacific Ocean.

Approaching unobserved the girl who had caused the glass to fall, De Soto raised the puffs and transformation of the girl in the box, bounced an empty pint size bottle once, replaced the hair and returned immediately to the dancing

But it was after the reserves and Mr. Humphreys went home that the function became happiest. One gentleman leaning against a pillar about 5:30 o'clock A. M. who did not give his name said as he looked at the southwest corner of the grand ballroom, where two ladies were suffering from hysterics, and then glanced toward the tables on the north side, among which two youths were having a severe dispute, that it was one of the noblest nights he ever see. His only regret, he said, was that owing to the fact that he has one glass eye he couldn't take all the happenings in as well as might, especially as even his glass eye was becoming blood-

misfortune a great swell of emotion shook his frame suddenly. Perhaps there are few more heartrending sights than to see a strong man weep. Many noticed how far the man's tears and rending sobs were spoiling the whole evening for the more sensitive. Mr. One Round Hogan saw at a glance what to do.

the S. P. C. A. needs the entire services of its president.

In the call for the meeting which Col. Wagstaff sent out, as required by the rules of the society, the purpose of the meeting, according to one of the insurgents, is announced to be merely the consideration of having a salaried president and nothing is said of the question of the time to be given to the society's work.

To correct what he believed might be a wrong impression of the purposes of the meeting Mr. Opdycke had postal cards printed setting forth more fully the points to be considered and then applied to President Wagstaff for permission to use the society's mailing list to send out the cards. According to Mr. Opdycke Col. Wagstaff replied that the meeting would be too large anyway, since the hall would only hold 250, and that it was against the rules of the S. P. C. A. to allow any one to see its mailing list. Mr. Ordycke sent a formal request vestering any one to see its mailing list. Mr Opdycke sent a formal request yesterday

DR. GRENFELL GOING BACK To Labrador to Aid His People, Who Are Badly Off.

Wilfred T. Grenfell, the doctor who takes care of the souls and bodies of the fishermen of Labrador, intends to leave this city, where he has been lecturing some time, within the next week He has read the reports of sickness and suffering among his own people by the bleak north seas, and he said yesterday that he expected this last fall, when he heard that the inshore fishermen were coming in with empty boats.

"Poor fishing for those that do not go for they are the poorest in Labrador. A man who can afford it gets him a boat and goes out to sea to get his fish. It is only the little fishermen who stay by the shore."

Trom a term in the Atlanta penitentiary to a fine.

To secure these results the Jewellers Board of Trade had to enlist the aid of President Taft and get the appointment

when he first came to this city Dr. Grenfell said that he had a job for any young man who loved adventure and he said yesterday that he had found his man. The job is to take a forty foot yawl which the doctor has sold to the Hudson Bay people from the southernmost part of Labrador clear around to the Hudson Straits and Wolstenhome, a distance of some thousand miles.

Straits and Wolstenhome, a distance of some thousand miles.

The yawl, which has a 15 horse-power auxiliary engine, is to be commanded by a Yale senior who has had experience under Dr. Grenfell before, and the young sailor is at present picking his crew from the huskiest looking men on the Yale campus. The crew consists of four men, and they may have to spend the winter in the straits if, as is very likely, they miss the Hudson Bay steamer Pelican, their only hope of getting back to civilization after they deliver the yawl.

any one to see its mailing list. Mr. Opdycke sent a formal request yesterday to the committee on literature, which met with Col. Wagstaff yesterday at 4 o'clock, and at 4:30 he says he got back a reply that the committee had decided that he couldn't have the mailing list. Mr. Opdycke says he will go to court and seek a writ of mandamus compelling Col. Wagstaff to turn over the mailing list.

Mr. Opdycke said that neither he nor the others who signed the call for the meeting had a candidate in mind to supplant Col. Wagstaff. He said that he had never heard mentioned the name of Admiral Marix, spoken of as a candidate in some of the newspapers, but that he had heard that Gen. Bingham, the former Police Commissioner, had been well spoken of by many of the members.

Col. Wagstaff, who is also clerk of the Appellate Division of the Supreme Court, said at the Court House yesterday afternoon that he refused Mr. Opdycke's demand to see the mailing list because he had no authority from the board of directors to permit a copy to be made of it. Two other Shreve brothers, Archie and Hilliard, together with J. R. Josey and Luther M. Johnson, were arrested and indicted in the conspiracy case, but the case against them were nolle prossed.

The Shreve family has been commer cially powerful in Alabama for a long Since Nov. 10 Last-Increase of Deposits. period of years, running many general once merchandise stores and organizing many companies. Some of these companies sold stock, some lumber and some jews elry. Their interests covered the entire State. On April 16, 1909, they added a jewelry company to their enterprises. It was the City Jewelry Company of Montgomery, of which the Major was president and one of his brothers secretary and treasurer. They bought jewelry from many jobbers in the South and then in September, 1909, gave out that they had September, 1909, gave out that they had shipped all their stock to a general merchandise store run under the name of J. H. Shreve in Greenville, Ala., for a special sale. A few weeks later this store Newark yesterday morning the surplice and the warehouse attached were burned to the ground in the absence from the town of Major Shreve. It was announced that the entire contents had been destroyed; that there was no insurance and two other altar boys, each 11 years old
